About Us

Canyurtlar started manufacturing as a stove workshop in 1988 at the Ankara Stove Makers Bazaar. Professional experience has been inherited from grandfather to grandson since 1940 until today.

Now, Canyurtlar continues its production in its factory located at the Ankara ivedik Industrial Zone. Our factory is built on 8000 m2 closed area on a 5600 m2 open land. It has been manufacturing Horizontal Flue Sets, Vertical Flue Sets, Extensions, Elbows and accessories from raw material with own capabilities. All of our systems are renewed according to the European standards by our experienced technical staff by using recent technology.

Quality: We manufacture our hermetic boiler Flues in accordance with high quality standards and apply strict quality control procedures. We are committed to providing our customers with products they can use with confidence.

Technology: We closely follow technological developments and adopt innovative approaches to continuously improve our products. In this way, we are able to offer our customers the most efficient and safe combi Flue systems.

Environmental Sensitivity: Environmental protection is important to us. For this reason, we manufacture our products from environmentally friendly materials and develop products that encourage energy saving.

Horizontal Coaxial **Flue Kits**

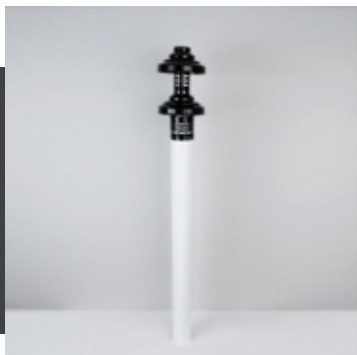

CODE	PRODUCT DESCRIPTION	PRICE	WEIGHTS
